

The WAPIC 2011 Brochure is ready for download!

The #1 West African utility event brings an outstanding line-up of speakers to Abuja, Nigeria from 28 November until 1 December 2011

We have exciting case studies and a CEO Session this year focusing on utility performance improvement. The case studies will highlight massive loss reductions from India, tripling electrification and national access rates from Lesotho, and network distribution improvements from Tunisia.

Speakers you will hear from include:

- Professor Bart Nnaji, Nigeria's new Minister of Power
- Kweku Awotwi, CEO, Volta River Authority, Ghana
- Anish Garg, Joint Director (Performance Standards & Engineering), Delhi Electricity Regulatory Commission, India
- Solomon Quaynor, Country Manager, International Finance Corporation
- Babatunde Adeyemo, Co-ordinator, West African Power Pool, Benin
- Dr Sam Amadi, Chairman & CEO, Nigerian Electricity Regulatory Commission
- Theo Sackey, Power Sector Specialist, Africa Finance Corporation
- Aboubacry Mbodji, Executive Director, CODESEN, Senegal
- Bolanle Onagoruwa, Director General, Bureau of Public Enterprises, Nigeria

What will you gain by attending WAPIC 2011?

- Meet with all the key stakeholders in the West African power sector
- Experience three days of a balanced programme of topics encompassing challenges in generation, transmission and distribution
- Listen to experts share their insights into the potential for renewable energy in the West African region
- Receive an update on the power sector privatisation process and the challenges and successes experienced in Nigeria
- Gain an understanding of the steps required to improve utility performance from loss reductions to network distribution development and increased electrification rates
- Hear from multilateral donors on what projects are bankable and the criteria for attracting finance
- Discuss the challenges that Nigeria is facing in developing its regulatory and legal framework to increase investor confidence and security
- Evaluate power sector investment opportunities
- Roam the exhibition floor and network with expert consultants and service providers keen to support the growth of the West African power sector
- Receive in-depth analysis and education from the pre-conference workshops on Monday 28 November on finance, metering, investment, renewable energy potential and solar energy as a clean energy option
- Explore Geregu gas turbine power plant on the Siemens site visit on Thursday 1 December
- With such an exciting line-up of events, can you afford to miss it?
